SUMMARY

Aspiring entry-level Full Stack Developer skilled in HTML, CSS, and JavaScript. Eager to contribute to user-friendly web applications and enhance expertise in both Front-End and Back-End technologies within a collaborative team.

TECHNICAL SKILLS

- **Programming Languages:** C++, Python, JavaScript, Object-Oriented Programming
- **Web Development:** HTML, CSS, Bootstrap, React.js, Express, Node.js
- **Database Technologies:** SQLite, MongoDB
- **Cloud Technologies & Version Control:** AWS, Git
- Data Structures & Algorithms
- **Soft Skills:** Time Management

WORK EXPERIENCE

NRG NR

March 2025 – April 2025

FullStack Developer

- Engineered a responsive company website using React.js, CSS, and JavaScript, resulting in a 35% boost in mobile and desktop engagement.
- Built intuitive Services, Contact, and About sections to streamline user navigation and improve content accessibility.
- Integrated an AI-based chatbot with API services, enhancing customer interaction time by 40% and reducing manual inquiries.

PROJECTS

Yumcart App [Live Link](#)

January 2025 – February 2025

- Developed a full-stack food ordering web application (YumCart) using the MERN stack, enabling seamless user interaction and efficient order management.
- Designed and built a responsive frontend using React.js, ensuring an optimal user experience across all devices.
- Implemented user authentication (Sign In/Sign Up) with JWT, enhancing security and access control.
- Designed a backend with Node.js, Express, and MongoDB Atlas to handle API requests, database management, and authentication.
- Implemented CRUD operations for food items in the admin panel, allowing easy product management.

Real-Time Chat Application [Live Link](#)

March 2025 – April 2025

- A real-time chat web application built using Node.js and Socket.IO that enables users to communicate instantly in a chat room after authentication.
- User Authentication: Signup and login forms with input validation.
- Secure Access: Only authenticated users can enter the chat room.
- Live Messaging: Real-time communication using WebSockets (Socket.IO).

Chatbot [Live Link](#)

March 2025 – April 2025

- Developed an interactive AI-powered chatbot using ReactJS integrated with Gemini AI, designed to handle customer queries efficiently. Built a clean, responsive UI for smooth user experience and seamless integration with Gemini AI.

EDUCATION

Bachelor of Technology in Chemical Engineering

[Sardar Vallabhbhai National Institute of Technology, Surat](#)

December 2021 – June 2025

Board of Intermediate Education

[Elite Junior College, Dubacherla](#)

June 2019 – March 2021

CERTIFICATIONS

- Achieved HTML Certification – Lumos Learning.
- Completed Full-stack Development – Nxtwave Disruptive Technologies.
